Leaders In Life Sciences & Genomics Come Together

THURSDAY, 12 NOVEMBER 2015 17:49 | LAKSHMI RAMAKRISHNA

SciGenom Research Foundation (SGRF) and its co-hosts - Center for Cellular and Molecular Biology (CCMB), and Institute of Bioinformatics (IOB) hosted the three-day NextGen Genomics, Biology, Bioinformatics and Technologies (NGBT) Conference at Hyderabad International Convention Center (HICC). The inauguration was presided over by Ch. Mohan Rao, Director, CCMB. Other speakers included Dr George Thomas, Director, SciGenom Research Foundation, Dr Sekar Seshagiri, 2015 NGBT Conference Chair and Dr Thangaraj, Group Leader, CCMB.

The conference featured various sponsors from the genomics and sequencing platform manufacturers who were excited to partner with the largest genomics conference in the country bringing together the best of scientific minds and practitioners together. MedGenome, the leader in clinical genomics in India was a major sponsor for the event along with Illumina, the largest sequencing platform manufacturer in the world.

"The conference provided a platform to bring academia and industry in genomics and related technologies together," Sam Santhosh, CEO, MedGenome opined. He added: "We are happy that the NGBT conference has grown to become the largest genomics conference in the country."
