Message from the Organizing Committee Chairperson

- Dr.Deepthi Jammi

Dear Doctor,

It gives me great pleasure to invite you to DIALOGUE - a conference based on the principles of constructive conversation, questioning and discussion. Literally and figuratively, DIALOGUE is set to provide a stage for experts to engage in thought-provoking conversations on topics weaved together by a common thread by some of the most respected moderators.

Panel Discussions

As part of this year's programme, we have some very exciting topics lined up, for panel discussions, ranging from infertility and high risk obstetrics to fetal medicine. Keeping in mind the spirit of the occasion, the discussion would not just cover advanced topics but also seek to revisit the basics for completeness sake.

One-to-one Conversations

We also have interesting one-to-one conversations on the role of genetics in fetal medicine and on the emerging science of uterine transplants.

Newsletter Launch

We will be launching the newsletter avatar of DIALOGUE. This is slated to be a periodical circulation with inputs, from various quarters, on latest research, opinions, interesting cases and findings.

We are extremely happy to announce that exalted members of the medical community have agreed to be a part of the Editorial Advisory Board with Prof.S.Suresh as the Editor-in-Chief.

I sincerely hope you will be able to join the dialogue and share your thoughts and views. I look forward to welcoming you there
