MedGenome Acquires Lifecode Health Assets and CLIA Certified Lab in Bay Area

PR Newswire

FOSTER CITY, California, February 24, 2016

FOSTER CITY, California, February 24, 2016 / PRNewswire / --

MedGenome acquires the assets of Lifecode Health and its 13,000 sq ft lab in Foster City, CA to expland its genomic services to biotech and pharma companies in the US.

MedGenome, the market leader for genomic diagnostics in South Asia and a leading provider of genomics research services globally, has acquired the assets and a fully-certified CLIA/CAP NGS laboratory with 13,000 sq ft in Foster City, CA. MedGenome has also retained key employees of LifeCode.

MedGenome operates the largest privately owned NGS lab in India and in the US its genomic research services are being used by pharma and biotech companies in areas such as cancer and immunotherapies, metabolic diseases, Parkinson's disease, kidney, liver, and ophthalmological diseases, diabetes, deafness, and aging.

With the acquisition of a fully-certified NGS lab in the Bay area, the company plans to expand its genomic services and offerings to biotech and pharma companies enabling their precision medicine efforts in early discovery, research and clinical trials.

"We have been expanding in the U.S responding to the need for faster, cheaper and better genomic services and solutions," said CEO Sam Santhosh, "The acquisition of this lab will allow us to grow our customer base even more aggressively in the US."

About MedGenome:

MedGenome (http://www.medgenome.com) is a genomics-driven research and diagnostics company with a mission to improve global health by decoding the genetic information contained in an individual's genome. Its unique access to genomics data with clinical and phenotypic data provides insights into complex diseases at the genetic and molecular level to facilitate research in personalized health care. MedGenome is a market leader for genomic diagnostics in South Asia and a leading provider of genomics research services globally.

About Lifecode Health:

Lifecode Health, founded in 2011 is precision/personalized medicine company with a lab in Foster City CA. It has raised \$20.5 million in funding from investors.
